HOOFMASTER

ALL-IN-ONE FOOTBATH CONCENTRATE

REDUCE COPPER USAGE BY UP TO 80%

WE COMBINE INNOVATIVE TECHNOLOGIES AND ADVANCED FORMULATIONS TO BRING YOU SOME OF THE BEST HOOFCARE PRODUCTS ON THE MARKET.

HoofMaster Concentrated Copper Sulphate Footbath keeps copper active longer & reduces copper by up to 80%.

HoofMaster is the easy-to-use footbath concentrate that helps you reduce *copper* and costs. There's no need for measuring "dry copper sulfate." Just add the **HoofMaster** pre-mixed solution to water, and begin cutting your *copper sulfate* usage and lower the cost of your footbath program. **HoofMaster** includes penetrating cleaning agents which enable *copper* to work right where it's needed most, even in the presence of organic matter. Compared to *copper sulfate* alone, **HoofMaster** has the perfect formulation to enable more successful cow passes for a more cost-effective footbath. While maintaining the control levels you demand.

HoofMaster is guaranteed to reduce copper sulfate usage and will improve the effectiveness of your footbath program. The special **HoofMaster** formulation contains *copper ions* and *stabilizers*, in a pre-mixed, easy to use concentrate. No Mixing, and no additional *copper* required.

Organic Also Available

- *Advanced Formulation* • *Pre-Mixed Easy To Use* • *Powerful Disinfectant*
- *Combats Most Foot Diseases*
